Reasons for Allowance

Claims 1-7 and 9-15 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claim 1 recites the structural limitation of a unit for feeding comprising a first transfer wheel substantially coaxial with said first axis and connected to said hopper to rotate about the first axis; the first transfer wheel having a substantially truncated-cone-shaped first outer peripheral surface, and a number of first seats formed in said first surface, equal in number to said feed channels, and each first seat being adapted to receive at least one of said capsules from at least one of said channels, in combination with the rest of the recited structure, clearly defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
